

# 10 Reasons to Join the Westlake Junior Golf Summer Program

1. \$9 green fees every day after 11:30 for a full year!
2. Have fun hanging out with buddies & meeting new friends.
3. Exercise, be outside, sleep better, breathe fresh air, experience nature (see how many types of birds and other animals you can find while you play).
4. Acquire more independence and confidence. As juniors mature many set up regular games with their friends.
5. Creativity! Depending on where their golf ball lies, golfers need to use their imagination to create their next shot. Adventure! No two rounds of golf are ever the same.
6. Golf teaches self-control, discipline and management of emotions.
7. Prepare for high school golf. Many of the finest high school players in the area started with our program.
8. Golf is much easier to learn as a child because children typically have more body flexibility and have more available time to learn than adults do.
9. Our program is comprehensive: juniors learn golf etiquette and rules, take lessons & play in tournaments. And our program lasts for seven weeks. Most junior programs are only 1 - 2 weeks long.
10. A future playing golf in college or beyond? Many former WJG members have played college golf and professional golf. Two examples are current PGA TOUR player Brandon Hagy, and National USGA Champion Lauren Diaz-Yi.
